- Find the subjects and verbs in a sentence, and write correct compound sentences.

Rules and explanations

A short summary of the grammar in Unit 1.

Subjects and verbs

- The subject is the person, place or thing doing the action. The verb shows the action or "being" (is, are, seem). A sentence can have more than one subject or verb.

Simple present, present continuous and imperative

- Simple present: facts, routines and permanent situations. After he, she, it or one thing, add -s: "She drives from Mexico to San Diego once a week."
- Present continuous (am / is / are + verb-ing): actions happening now ("We are strolling on the beach"), or new and temporary actions ("This semester, she is working at a restaurant").
- Stative verbs (own, like, be, understand) are usually not continuous: "I own a car", not "I am owning a car".
- Imperative: the base form with no subject, for instructions: "Spend an afternoon ...". Negative: "Don't forget ...".

Proper nouns

- Common nouns are general: a mountain, a school. Proper nouns are specific names (people, months, mountains, schools, cities, countries, nationalities, languages). They start with a capital letter.

Compound sentences

- Two independent clauses (subject + verb, subject + verb), joined by a comma and a FANBOYS word. The most common are and, but, or and so.
- It is not compound if there is only one clause: one subject with two verbs ("We go to the beach and enjoy the water"), or a list of words joined by "and".

Adjectives, comparatives and superlatives

- Adjectives usually come before the noun: "a small lake". The usual order is opinion, size, age, shape, color, origin, material, purpose: "a beautiful new Italian car".
- -ing adjectives describe the thing that causes a feeling ("The movie was amazing"). -ed adjectives describe how a person feels ("She felt excited").
- Two things: -er + than, or more / less + adjective + than: "larger than", "more difficult than".

- Three or more: the + -est, or the most / the least: "the highest point", "the most popular mountain".

> **Note for Arabic speakers**
>
> - Arabic sentences in the present often have no verb "be". In English you need it: "We are strolling on the beach", not "We strolling on the beach".
> - In Arabic, the adjective comes after the noun. In English, it usually comes before the noun: "delicious food", not "food delicious".

Practice

Part A: Listening and vocabulary

1. Listening: Sightseeing. (a) Mark the words you know: guide, art museum, restaurant, downtown, zoo, souvenir, subway, seashore, beach, recommend. Which of these sights does your city have? (b) Open the recording page (see Watch online), listen to the recording, and answer the questions below the recording. (c) Look at the map of San Diego in your lesson material (or an online map). Make a conversation with your tutor: you are visiting San Diego and would like to see some sights. Where should you go and why?

2. Immigrants: match. In 4.3 ("Vocabulary from Videos 'Contributions of Immigrants'"), match the seven words (culture, immigrant, grief, joy, integration, Hispanic, public) with their definitions.

3. The Great Migration: word forms. In 4.3 ("Vocabulary from Textbook Reading 'The Great Migration'"), write the word that matches each of the ten meanings. Then write the related word forms on the blank lines.

4. Culture shock. Answer the eight questions in 4.3 ("Vocabulary from Textbook Reading 'Overcoming Culture Shock'") in complete sentences. The last one is new: What is one example of a nonverbal gesture?

Part B: Grammar review

5. Simple present. Fill in the blanks in the Mission District paragraph (4.4, "Simple Present Tense Practice") with the simple present of: have, speak, keep, allow, create, see, enjoy, show, mix.

6. Imperative and simple present. Write five instructions for a friend visiting your city. After each imperative sentence, explain it with a sentence in the simple present. Use these verbs or your own: Don't miss, Spend, Bring, Visit, Don't forget, Remember, Take, See.

7. Subjects and verbs. Find the subject and the verb in the ten sentences of "Verbs and Subjects Practice" in 4.4 (about grey whales and festivals).

8. Find the compound sentences. In the last paragraph of "Overcoming Culture Shock" (in 4.4), find two compound sentences. What is the FANBOYS word in each?

9. Compound or not? Is each sentence compound? If not, why not? Find the subjects, the verbs and the FANBOYS.

- (a) It was exciting, but she felt alone and uncomfortable.
- (b) Maria's mother kissed Caitlin on both cheeks, and Caitlin was surprised.
- (c) People feel incompetent and nervous because of culture shock.
- (d) She felt overwhelmed by the new customs, language, and surroundings.
- (e) There was new food, new daily schedules, and new rules of etiquette.
- (f) They spoke loudly and they argued about politics.
- (g) That night, Caitlin crawled into a strange bed, but she wanted to go home.
- (h) We relate to others through shared cultural norms, and ordinarily, we don't even notice them.

10. Combine. Join each pair with a comma and "and", "or", "but" or "so". Then write two compound sentences of your own.

- (a) Cultural norms are difficult to understand. Many people feel culture shock when they visit a new country.
- (b) I feel culture shock every time I visit France. I still enjoy visiting there.
- (c) You can avoid visiting a new country. You can visit and try to adjust quickly.
- (d) Learning the language is important. It is not the only cause of culture shock.
