# English Stage 4 (C1-C2): English for Psychology

Advanced, C1 to C2 · English for psychology · 5 units · 37 lessons · about 13 weeks

Study pack for personal study with a local AI tutor. Lessons follow an open university textbook of psychology research methods:

- *Research Methods in Psychology (4th American edition)*, Rajiv S. Jhangiani, I-Chant A. Chiang, Carrie Cuttler and Dana C. Leighton (CC BY-NC-SA 4.0) https://socialsci.libretexts.org/Bookshelves/Psychology/Research_Methods_and_Statistics/Research_Methods_in_Psychology_(Jhangiani_Chiang_Cuttler_and_Leighton)

The books are openly licensed; the guides and the formatting are adaptations for personal study. Audio clips and online exercises are on the original web pages (each lesson material shows the link).

## How to study each lesson

1. **Read the study guide** up to "Practice": goals, key language and rules (about 15 minutes).
2. **Work through the lesson material**: read the texts, watch the videos, and listen to the audio on the original page when the material asks you to listen.
3. **Do the Practice** in the guide, then check your answers on the answer key page (the last page before your notes).
4. **Speak with your tutor** (about 20 to 30 minutes). In the app, open *Study*, choose *English Stage 4 (Psychology)* and the lesson's topic, and start *Live conversation*. Use the ideas in "Speak with your tutor". Ask the tutor to correct your grammar and pronunciation.
5. **Read aloud and write.** Record yourself reading the "Read aloud" lines with your phone and listen back. Write the writing task, paste it into the chat, and ask the tutor for corrections. Then rewrite it.
6. **Review the next day.** The app's *Today* page shows the lessons and words that are due.

## Study plan (3 lessons a week)

| Week | Lesson | Title | Files to print |
|---|---|---|---|
| **Unit 1: Psychology as a Science** | | | |
| 1 | 01 | Methods of Knowing and Understanding Science | study guide (8 p.), lesson material (4 p.) |
| 1 | 02 | The Goals of Science; Science and Common Sense | study guide (9 p.), lesson material (3 p.) |
| 1 | 03 | Experimental and Clinical Psychologists | study guide (8 p.), lesson material (4 p.) |
| 2 | 04 | The Research Cycle and Finding a Research Topic | study guide (8 p.), lesson material (5 p.) |
| 2 | 05 | Research Questions and Hypotheses | study guide (8 p.), lesson material (4 p.) |
| 2 | 06 | Designing a Study, Analyzing Data and Reporting Results | study guide (9 p.), lesson material (7 p.) |
| **Unit 2: Research Ethics and Measurement** | | | |
| 3 | 07 | The Moral Foundations of Ethical Research | study guide (8 p.), lesson material (4 p.) |
| 3 | 08 | From Moral Principles to Ethics Codes | study guide (8 p.), lesson material (5 p.) |
| 3 | 09 | Putting Ethics into Practice | study guide (8 p.), lesson material (5 p.) |
| 4 | 10 | Understanding Psychological Measurement | study guide (8 p.), lesson material (5 p.) |
| 4 | 11 | Reliability and Validity | study guide (8 p.), lesson material (3 p.) |
| 4 | 12 | Practical Strategies for Psychological Measurement | study guide (8 p.), lesson material (5 p.) |
| **Unit 3: Research Designs** | | | |
| 5 | 13 | Experiment Basics | study guide (9 p.), lesson material (5 p.) |
| 5 | 14 | Experimental Design: Between and Within Subjects | study guide (9 p.), lesson material (3 p.) |
| 5 | 15 | Experimentation and Validity | study guide (9 p.), lesson material (3 p.) |
| 6 | 16 | Practical Considerations in Experiments | study guide (9 p.), lesson material (5 p.) |
| 6 | 17 | Non-Experimental and Correlational Research | study guide (9 p.), lesson material (6 p.) |
| 6 | 18 | Complex Correlation | study guide (10 p.), lesson material (3 p.) |
| 7 | 19 | Qualitative Research | study guide (8 p.), lesson material (3 p.) |
| 7 | 20 | Observational Research | study guide (9 p.), lesson material (8 p.) |

| | | | |
|---|---|---|---|
| 7 | 21 | Survey Research: Constructing Surveys | study guide (8 p.), lesson material (7 p.) |
| 8 | 22 | Conducting Surveys | study guide (9 p.), lesson material (5 p.) |
| 8 | 23 | Quasi-Experimental Research | study guide (9 p.), lesson material (6 p.) |
| 8 | 24 | Factorial Designs | study guide (8 p.), lesson material (7 p.) |
| 9 | 25 | Single-Subject Research | study guide (9 p.), lesson material (6 p.) |
| 9 | 26 | The Single-Subject Versus Group Debate | study guide (9 p.), lesson material (4 p.) |
| **Unit 4: Statistics in Research Reports** | | | |
| 10 | 27 | Describing Single Variables | study guide (8 p.), lesson material (4 p.) |
| 10 | 28 | Describing Statistical Relationships | study guide (7 p.), lesson material (3 p.) |
| 10 | 29 | Expressing Your Results and Conducting Your Analyses | study guide (8 p.), lesson material (8 p.) |
| 11 | 30 | Understanding Null Hypothesis Testing | study guide (8 p.), lesson material (4 p.) |
| 11 | 31 | Some Basic Null Hypothesis Tests | study guide (7 p.), lesson material (7 p.) |
| 11 | 32 | Additional Considerations, the Replicability Crisis and Open Science | study guide (9 p.), lesson material (7 p.) |
| **Unit 5: Writing and Presenting Research in APA Style** | | | |
| 12 | 33 | APA Style: Its Levels, References and Citations | study guide (9 p.), lesson material (6 p.) |
| 12 | 34 | The APA Research Report 1: Title Page, Abstract and Introduction | study guide (9 p.), lesson material (3 p.) |
| 12 | 35 | The APA Research Report 2: Method, Results, Discussion and References | study guide (8 p.), lesson material (3 p.) |
| 13 | 36 | Posters and Talks | study guide (8 p.), lesson material (5 p.) |
| 13 | 37 | Final Project: Your Research Proposal in APA Style | study guide (9 p.), lesson material (4 p.) |

Total: about 491 printed pages. A project or review lesson takes longer: give it a full study day. After this stage: read psychology research articles and write in APA style on your own. Keep studying PSYC 110 and read the free OpenStax Psychology 2e textbook.
